Shaik **Kudhan**

Python Developer | Full Stack Developer

kudhanshaik06@gmail.com | +91 6304400979 | www.linkedin.com/in/shaik-kudhan-751412281

PROFESSION SUMMARY

Dynamic Developer proficient in MERN stack and Python, skilled in writing clean, scalable code and delivering cost-effective engineering solutions. Experienced across the full SDLC, specializing in troubleshooting, system verification, program analysis, and developing technical documentation. Eager to apply strong technical versatility and a commitment to knowledge sharing in an executive Organization.

SKILLS

PROGRAMMING

Languages
- Advance: Python,
- Intermediate: Java, C, JavaScript

Tools
- Node.js · GIT · Windows

Frameworks
- React
- Express

Technologies
- SQL
- MongoDB
- Tailwind CSS
- PostgreSql

EDUCATION

- **B. Tech, CSE**
  JNTU-GV (Pursuing)
  2023-26 | Vizianagaram
  CGPA: 8.17 / 10

- **Diploma, CME**
  Govt Polytechnic College
  2020-23 | Anakapalli
  Percentage: 90%

- **SSC**
  St.Anne's High School
  2010-20 | Chinthapalli
  Percentage: 93%

Extras

- **Languages**: English, Telugu, Hindi
- **Hobbies**: Coding, Design, Chess

EXPERIENCE

Full Stack Web Developer   Labmentix | May-25 - Sept-25| Remote
- Developed and deployed real-time web applications using the MERN stack, applying an Agile methodology throughout the Software Development Life Cycle (SDLC)
- Collaborated with cross-functional teams to deliver scalable solutions with 97.33% accuracy in production and increased efficiency .
- Integrated RESTful APIs, optimized backend logic, and enhanced UI/UX for better user engagement.

Data Analytics Intern   APSSDC | May-25 - July-25 | Virtual
- Developed a Web Traffic Analyzer project using pandas and scikit-learn.
- Performed EDA and visualizations, gaining insights from real-world datasets.

Industrial Trainee - ML & Python   HMI | Dec-22 - Jun-23 | Visakhapatnam
- Developed a Fake News Detection project using NLP and scikit-learn.
- Led a team in modeling and implementation, with 91% success rate.

Projects

CollabSphere   — Project & Team Management Platform

Tech Stack: MongoDB, Express.js, React, Node.js (MERN),
- Built a full-stack platform to manage projects with task assignment, progress tracking, and team-based workspaces with 98% task accuracy.
- Enabled seamless collaboration and clear task visibility for 15+ users.

Finance Glance   — Personal Finance Tracker

Tech Stack: MERN Stack
- Engineered a responsive financial tracker for expense logging, automated PDF reports, and visual insights, reducing manual tracking time by 70%.

Melo   — Real Time Chat Application

Tech Stack: MERN Stack , Socket.io
- Designed and developed a scalable, real-time chat application featuring open messaging, image sharing, and live Socket.IO communication.

CERTIFICATIONS

- **Python Essentials -** Cisco - Issued May 2025
- **Cloud Computing Fundamentals -** IBM- Issued October 2025
- **SE and Agile Development -** Infosys - Issued July 2025
- **React Js Foundations -** ScholarHat- Issued Oct 2025
- **Cyber Security Honour -** JNTU-GV - Issued April 2024
